A Calm Path to Reading.

When my daughter started reading, I hit a wall. Most apps were noisy video games that hijacks attention. I wanted a calm, focused experience, so I built Clean Reader—an editorial-calm approach prioritizing mastery.

- **No Picture-Guessing:** Without a 'puppy' next to *d-o-g*, kids must decode rather than guess, ensuring they build real reading skills.
- **Intentional Design:** We use Montessori color coding (red consonants, blue vowels) and single-story fonts (a/g) to help their brains separate the building blocks of words.
- **A Logical Path:** We start with just the first six sounds (SATPIN) and move gradually toward mastery, ensuring your child always feels capable.

Audio is Necessary

To teach blending, an adult must model pure sounds perfectly (saying the crisp /m/ rather than "muh"). Use the Clean Reader companion app to hear the sounds and practice along:

- **Fully Offline:** No internet needed.
- **Montessori Based:** Science-backed.
- **No Gamification:** Zero distractions.
- **100% Private:** No emails or ads.

SCAN TO DOWNLOAD

Learning to read should be a quiet, empowering moment. Take it one page at a time. You've got this.

Warmly, **Priyank** • Artful Roots Co.

Phoneme Mastery Map

Colour each sound as your child masters it.

download the digital companion

44 SOUNDS, ONE AT A TIME.

English has 44 phonemes but only 26 letters. This map tracks the actual sounds — not the alphabet. The Clean Reader app covers all 44 across its flash card and blending modules.

SHORT VOWELS

ă	ĕ	ĭ	ŏ	ŭ
cat	egg	pig	hot	cup

CONSONANTS

b	d	f	g	h	j	k	l
bat	dad	fan	get	hat	jet	kid	lip
m	n	p	r	s	t	v	w
mat	nap	pin	rip	sit	tap	van	wig
y	z	ch	sh	th	th	ng	wh
yes	zip	chip	ship	this	thin	sing	when

LONG VOWELS

ā	ē	ī	ō	ū	oo	oo	ow/ou
cake	tree	kite	boat	flute	book	moon	cow
oi/oy	aw/au						
boy	saw						

R-CONTROLLED & SCHWA

ar	er/ir/ur	or	air/ear	ə
car	bird	fork	chair	pizza

The app covers all 44 sounds with audio, flash cards, and blending practice. Download at:

Word Tracing: s, a, t, p, i, n

Practice spelling words with the first six sounds.

download the digital companion

Why Tracing?

Tracing helps develop fine motor skills and letter recognition. Each sound is color-coded to Montessori standards.

Blending Sounds
Instruct your child to touch the dot under each letter and say its sound. Then slide their finger along the bottom line to blend the sounds together.

s a t	t a p
p i n	p a t
t i p	s i p
s i t	p i t
n a p	p a n
t i n	t a n

Sentence Cards

Read each sentence. Tap each box as you say each word.

download the digital companion

What makes a sentence decodable?

Every word in these sentences uses only the phonemes your child has already practised, except for the sight words listed. There are no surprises — this is deliberate, controlled fluency practice.

Sight words used: **the** · **a** · **I** · **is**

A tin sat in it.

words read ☐ ☐ ☐ ☐ ☐

Pip is in a pit.

words read ☐ ☐ ☐ ☐ ☐

Tap the pin Nip.

words read ☐ ☐ ☐ ☐

I sit in a pit.

words read ☐ ☐ ☐ ☐ ☐

The tin is tan.

words read ☐ ☐ ☐ ☐

Word Family Sort

Clean Reader Active Kit — Level 1

download the digital companion

Why cut and sort?

Physical sorting engages motor memory alongside phonemic pattern recognition. No writing means no pencil barrier — even 3-year-olds can participate fully.
